Report on Facilities available for differently-abled

In order to build environment for Differently-abled persons, there is a need of special arrangements in the environment for their mobility and independent functioning. It is also a fact that many institutes have architectural barriers that disabled persons find difficult for their day-today functioning. The Institutes are expected to address accessibility related issues of the Persons with Disabilities and ensure that all existing structures in their campuses are made disabled friendly. The institutes should create special facilities such as ramps, rails and special toilets, and make other necessary changes to suit the special needs of differently-abled persons. The construction plans should clearly address the accessibility issues pertaining to disability.

Sr. No	Description of Facility	Response (yes/no)	Evidence
1	Physical facilities	Yes	photo
2	Provision for lift	No	-----
3	Ramp and rails	Yes	Photos
